### Surprised occupant

**HONOLULU (UPI)** — Moving portable chemical toilets is usually a rather drab business. But not this week at a Waikiki building project.

Honolulu Advertiser columnist Tom Horton reports a crane snatched one of the chemical junks and was winging it skyward when there was a sudden outburst of angry yells — from inside the toilet.

The crane operator set it down gingerly. After several anxious moments an unidentified man stepped out and hurried away, uninjured as far as anyone could tell.

clubs. Then South led his king of diamonds. West looked the card over with disdain and played low. A second diamond was led and West had to take his ace. That left him on a lead with no lead to make. A spade would set up South's king, or a club would give a trick to dummy's ace.

If West had thought things out thoroughly he would have seen that the correct play would be to take the ace of diamonds and lead a diamond right back.

This play would succeed against the actual holding or if South held the doubleton king-queen of diamonds. It would lose only if South held king-queen-small.

A reader from Vermont wants to know the correct rebid. You open one spade and your partner responds one no-trump. You hold:

♠ A K Q 8 6 4 ♥ A 2 ♦ A A 3 2 ♣ A 4 3 2

We recommend a jump to three no-trump. You have eight apparent tricks at either no-trump or spades. Why try for 10 when you can try for nine at the card.

Actually, the way the cards lay there was no play for the game. This didn't keep South from making it with a little help from West.

He won the club lead and played three rounds of trumps. East discarded a couple of

Aces were made to take kings. At least they can take kings when the occasion arises. Furthermore, they should do just that most of the time.

South's four-heart opening was super-solid. Even though North had, dealt and passed there might well be a slam in the cards.
