

Medical Ventilator Market Outlook & Forecast Report 2022-2027 Featuring Leading Vendors by MRFR

Medical Ventilator Market Overview

The demand for life-extending medical devices is increasing considerably which has enabled further development of medical ventilators as well. Market reports associated with the medical device industry have been made available by Market Research Future which creates reports on other industry verticals that outlines the current market scenarios. The market is anticipated to develop at a 7.9% CAGR in the forthcoming forecast period.

The development of medically advanced facilities globally has also prompted a significant demand spike for [medical ventilators](#). The existence of significant players in the market is also modifying the product range that is available for use by end users. The escalation in the incidence of chronic diseases is expected to enhance the growth of the market in the forecast period.

Medical Ventilator Market Regional Analysis

The Asia Pacific region is displaying the top growth level in this market owing to the commonness of chronic heart diseases & respiratory illnesses and the rise in environmental pollution that has created a large patient pool to drive the expansion of this market. Moreover, the demand for point-of-care administration, increase in surgical procedure and the demand for non-invasive ventilators drive this market in Asia Pacific. The market demonstrates a stable but intensifying growth in the Middle East and African regions owing to the occurrence of obesity, heart disease, and other chronic illness, and escalating number of surgical procedures being carried out in hospitals.

The Americas region is the leading market for medical ventilators due to a boost in the lifestyle diseases resulting in chronic obstructive pulmonary diseases, asthma, bronchitis & other disorders. Moreover, the rise in surgical procedures, a growing number of critically ill patients, as well as the existence of a huge number of medical device manufacturers in the U.S is enhancing the development of the market. Furthermore, the addiction to smoking is also contributing to the development of this market. The European region is the next principal market whose expansion is credited to the escalating prevalence of chronic respiratory diseases and the subsequent demand for mechanical ventilators. The development of healthcare infrastructure, accessibility to funds from the government and the demand for critical care devices will also add to the growth of this market in the European region.

Medical Ventilator Market Segmentation

The medical ventilator market has been segmented on the basis of types of ventilators, applications, and regions. The segmentation on the types of ventilators comprises of invasive

ventilators, non-invasive ventilators, and [portable mechanical ventilator](#). The non-invasive ventilators are additionally segmented into pressure-cycled, volume-cycled, flow-cycled, and time-cycled ventilators. The mechanical ventilators are additionally divided into negative pressure and positive pressure ventilators. On the basis of applications, the market is segmented into neonatal care, critical care, emergency care, and others. The regions reviewed in the market are Asia Pacific, North America, Africa, Europe, and the Middle East.

Medical Ventilator Market Players

- Globus Medical, Inc. (U.S.)
- Depuy Synthes Inc. (Johnson & Johnson) (U.S.)
- Smith & Nephew plc. (UK)
- NuVasive, Inc. (U.S.)
- Stryker Corporation (U.S.)
- Integra LifeSciences Holdings Corporation (U.S.)
- Zimmer Biomet Holdings, Inc. (U.S.)
- Medtronic, plc (Ireland)
- Wright Medical Group N.V. (Netherlands)
- The Orthopedic Implant Company (U.S.)
- Aesculap Implant Systems (U.S.)
- Conmed Corporation (U.S.)
- BioTek Instruments, Inc. (U.S.)
- Arthrocare Corporation (U.S.)

among others are some key companies in the global Medical Ventilator that are listed by MRFR for market research.

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), & Consulting Services. MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients.
