Common Frequently Asked Questions

Q: What is the warehouse and its functions?

Warehouses serve as storage facilities for items like equipment, inventory, or supplies. Not only storage of goods but sorting, labelling, packaging and delivery of the goods are also some of the functions of warehousing. Such storage helps prevent inventory wastage and preserves product quality.

Q: Does a distributor need a warehouse?

Q: Why are warehousing services important in logistics?

Q: Is OTT transportation a good choice for warehousing services in Indiana, USA, and Surrey, BC?

Q: Does OTT Transportation provide warehouse services in Indiana, United States?
