STAINLESS STEEL FABRICATORS IN ABU DHABI

According to the needs of the client, Al Eiman Group of Companies has the requisite experience to fabricate and erect structural steel works. Along with DESIGN CALCULATION and proposal, we also offer SHOP DRAWINGS. We have completed structural fabrication work for power and desalination plants, projects involving oil and gas, and other commercial projects. Being the top stainless steel fabricators in Abu Dhabi, we have highly skilled engineers and workshop workers that can complete large projects on time and to the complete satisfaction of the client. The best thing about our scaffolding services is that we offer the best services at cheap prices without sacrificing employee or client safety.
